**Appointments**

If you must cancel an appointment you have scheduled, please call immediately. Except under emergency circumstances, 24 hours notice should be given for a cancellation.

**Confidentiality**

Your privacy is of utmost importance. It is strongly recommended that you review our HIPAA Privacy Notice for important details regarding the policies for maintaining confidentiality. In particular, you should be aware that you will only be contacted via means that you have specifically authorized in your new client paperwork. If you would like for information to be exchanged with persons other than yourself, an Authorization for Release of Information for must be completed. This form is available upon request.

Services for teenagers and their families require special consideration with regard to privacy. It is important to know that the law dictates that parents have the right to examine their child’s records (unless we determine that doing so would have a detrimental effect on the therapeutic relationship or the child’s physical or psychological well-being). Privacy is essential to effective therapy for teenagers; therefore, the policy is to provide parents with general information regarding the progress of treatment. Additional information will not be provided to parents unless the child consents or is in danger of harming themselves or others.

**Payment**

Behavioral Health does not turn away Partial Hospitalization clients for inability to pay. We are contracted with the Oklahoma Health Care Authority to accept SoonerCare (Oklahoma Medicaid), and we can also make private pay arrangements. In addition, each program has a limited number of scholarships available for clients who do not have Medicaid and are unable to pay privately. Please inquire with the Program Director for more information.

**Private Health Insurance**

While we are able to attempt to file a claim with your private health insurance, please also be advised that many health insurance plans have limited to no coverage for behavioral services (specifically Partial Hospitalization). In some cases, self-insured companies offer their employees coverage for behavioral services. We recommend that you contact your insurance company to discuss your coverage.

**Termination of Services**

Services may be terminated if it is determined that continued participation will be a detriment to your child or family. Your child's therapist, Program Director, and other members of the Treatment Team will discuss the best course of action for your family prior to terminating services or recommending a different course of treatment.
